

DYNEO DD-1001F Refrigerated / heating circulator

Refrigerated circulators of the DYNEO series distinguish themselves with a great price-performance ratio. The instruments offer high heating/cooling capacities for short heat-up and cool-down times. The refrigerated circulators work precisely and reliably even at higher ambient temperatures up to +40 °C. Either in basic research, in material testing or in technical systems – the DYNEO refrigerated circulators offer functional solutions for every requirement and budget.

Optional analog and digital interface

DYNEO circulators can optionally be equipped with analogue or digital interfaces. To request the options, order number must be extended with .d for the digital and .a for the analog interface (9XXX XXXX.A / 9XXX XXX.D)

Product features

- Optimized cooling coil design saves space in the bath tank
- powerful and infinitely adjustable pressure pump
- Flow rate 27 l/min, pressure 0.7 bar
- easy switching between internal and external circulation
- large color TFT display, multilingual interface
- central rotary knob (controller) simplifies operation
- Integrated programmer
- Integrated external Pt100 connection
- USB connection
- RS232 interface or analog interfaces (optional)
- integrated drain makes emptying liquid easy and safe.
- Bath cover included with delivery
- removable ventilation grid
- Powerful cooling machines
- For internal and external applications
- Integrated pump connection M16×1
- For internal and external applications

All Benefits

Handle with ease.
 Makes day-to-day work easy. Comfortably move your JULABO Circulator around by using the ergonomic handles (front and rear).

Wide range.
 Refrigerated and heating circulator in various combinations, circulator in various sizes. Maximum flexibility through a large selection of accessories.

Information. Everything clear.
 Information in plain text on a large color screen.

Turn. Push. Go.
 Easy operation of all parameters using the central controller.

Powerful. Adjustable.
 Strong pressure pump, continuously adjustable.

RS232.
 Connection using the optional RS232 interface.

Highly precise
 PID Temperature control with drift compensation and adjustable control parameters, temperature stability ±0.01...±0.02 °C

Brilliance. In color.
 Large color display with vivid luminance is easy to read, even from a large distance.

Multi-lingual.
 Operation in multiple languages.

Programmer. Integrated.
 The integrated internal programmer makes it possible to automatically run temperature time profiles.

USB.
 Remote control made easy using the integrated USB interface.

Analog I/O.
 Analog interfaces for integration into process control systems (optional).

Temperature. Under control.
External Pt100 sensor connection for precise measurement and control directly in the external application.

Fill level. Monitored.
Fill level indicator on the display for heat-transfer liquid.

Process stability.
Early warning - visual and acoustic - of critical states increases process stability.

Process. Under control.
Full regulation of the dynamics control, access to all important control parameters for individual process optimization.

ATC3. Calibration.
'Absolute Temperature Calibration' for compensating a physically caused temperature difference, 3-point calibration.

Stable. Mobile.
Rubber feet keep JULABO Circulators standing firm. Larger and more powerful units also have integrated rollers for easy handling.

Connection. Easy.
Inclined pump connections (M16x1) facilitate the connection of applications. Each unit includes 2 barbed fittings of 8/12 mm diameter each.

100 % Cooling capacity
'Active Cooling Control' for cooling available throughout the entire working temperature range, fast cool-down even at higher temperatures

More bath.
Designed for more comfort. Thanks to the recessed cooling coil, the internal bath provides more space.

Space saving. Free up space.
Place your JULABO Circulator right next to an application, another unit, or wall. That saves space. This is made possible by eliminating vents and connections on the sides.

Solid.
Minimized energy loss through high-quality insulation.

Tidy.
The special drain tap for easy draining of bath fluids without tools.

Condensation protection.
Superb design solution. Integrated ventilation directs air over the bath lid and minimizes condensation.

100% Checked.
100% testing. 100% quality. Each JULABO Circulator undergoes thorough quality testing before leaving the factory.

Green technology.
Development consistently applied environmentally friendly materials and technologies.

JULABO. Quality.
Highest standards of quality for a long product life.

Quick start.
Individual JULABO consultation and comprehensive manuals at your disposal.

Satisfied customers.
11 subsidiaries and more than 100 partners worldwide guarantee fast and qualified JULABO support.

Services 24/7.
Around the clock availability. You can find suitable accessories, data sheets, manuals, case studies, and more at www.julabo.com.

Quick support
If an error occurs, the integrated Black-Box function permits fast diagnosis by the JULABO service team
