

**COMBINE CLIMATE-FRIENDLY:
HEI-CHILL PRO**

**MADE IN
GERMANY**

The average operational lifespan of 10 years is backed by a 3 year warranty and makes your purchase a worthwhile investment.

Chillers Hei-CHILL Pro

Powerful – sustainable – compact

Considerably lower environmental impact by using natural refrigerants (R-290) and a performance-optimized system

Low operating noises for a comfortable work flow in the laboratory

Different performance variants from 400 W for different applications and high evaporation rates

Fast regeneration times of the temperature by compatible components

The compact design allows a space-saving positioning in the laboratory. Thanks to the powerful circulation pump, the device can also be operated under the work area

Stand alone or control via all Hei-VAP Expert Control and Ultimate Control models as well as via Hei-PROCESS and Hei-CONTROL Pro Software
